

Standard Profile	Banded Profile*	Features	Recommended Applications
LDN-N 	LDN-S 	Dual Primary Lips	Oil Seal — Flooded, Severe Splash

Shaft Diameter**	Cross-Section (Min.)	Height (Min.)	Pressure (Max.)***	Surface Speed (Max.)	Friction Rating (1 – 5 with 1 Best)
0.750 to 12"	Standard 0.250" Banded 0.375"	Standard 0.312" Banded 0.312"	150 psi	5000 sfpm	4

*Metal Banded — 301 Stainless Steel. For use when temperature is <0 or >250 °F or shaft diameter \geq 4.000".

**Consult engineering for shaft diameters that are outside the range of our standards.

***Seals that are retained with an extrusion gap smaller than 0.020" will go to higher pressures than listed.
