

Standard Profile		Banded Profile*		Features		Recommended Applications	
LMN-N 		LMN-S 		Machined Primary Lip		Low Friction	
Shaft Diameter**	Cross-Section (Min.)		Height (Min.)	Pressure (Max.)***	Surface Speed (Max.)	Friction Rating (1 – 5 with 1 Best)	
0.750 to 12"	Standard 0.250" Banded 0.312"		Standard 0.250" Banded 0.312"	30 psi	6000 sfpm	1	

*Metal Banded — 301 Stainless Steel. For use when temperature is <0 or >250 °F or shaft diameter ≥ 4.000 ".

**Consult engineering for shaft diameters that are outside the range of our standards.

***Seals that are retained with an extrusion gap smaller than 0.020" will go to higher pressures than listed.
