The Rubber Fab Gauge Guard Isolator gaskets protect expensive diaphragm and instruments from damage without affecting instrument performance. By combining a quality Rubber Fab sanitary gasket with a membrane, the Gauge Guard Isolator isolates hot or caustic saline solution from instrumentation. A necessary and cost effective step in assuring long life and accurate results from your instruments and gauges. As some manufacturers will suggest the use of a gauge guard gasket, others note that the failure to use a gauge guard gasket can void most instrument and gauge warranties.

All the Benefits in a Gauge Guard Gasket

- Gasket membrane protect instrumentation from caustic saline solutions
- Will not interfere with gauge operation or accuracy
- Works with most industry standard instruments
- Help extend the life of gauges
- Available in:
 - FKM Fluoroelastomer**
 - Platinum Silicone**
 - EPDM**
- 1/2" and 3/4" – .015 membrane thickness
- Metal Detectable elastomers available

All Rubber Fab Gaskets Meet the Stringent Standards For Purity

- U.S. Pharmacopeia Class VI Certification
- Cytotoxicity Criteria
- Title 21CFR 177.2600
- USDA and 3-A Sanitary Standards
- Current Good Manufacturing Practices (CGMP)
- ASME-BPE Standards
- Animal Derived Ingredient Free
