

WPC

Rubber covered OD for improvement OD sealing. Wiper profile for grease retention in slow rotary and reciprocating applications.

Standard Profiles	Other Profiles Available	Features	Applications
W 		General purpose rod wiper. For rotary and reciprocating service. Springless single lip. For dust exclusion.	Low retention, dust exclusion or scraper for reciprocating shafts.

Operating Temperature Range	Shaft Surface Speed fpm (m/s)	Shaft Size Range Inches (mm)	Maximum Shaft Dynamic Runout (TIR)	Maximum (STBM) Misalignment	Maximum Pressure psi (bar)
NBR -20 °F to 250 °F -29 °C to 121 °C FKM -40 °F to 400 °F -40 °C to 204 °C	Rotary: Up to 2000 (10.2) Reciprocating: Up to 300 (1.5)	3/8 – 10 (10 – 250)	0.010" (0.254 mm)	0.008" (0.20 mm)	0
